

LOKKUS DOGS&CATSCARE - ANIMAL SHELTER SRI LANKA

Our shelter in Nilaveli/Trincomalee currently houses 240 rescued dogs that would not have survived without help. Almost daily, puppies, sick, and disabled dogs are abandoned at our gate. Unfortunately, it is a difficult task to find a home for them locally. Often, new arrivals require life-saving surgery as quickly as possible. We regularly neuter street animals. Owners can have their dogs and cats neutered and treated free of charge at our facility. Our cats and a small number of dogs live in Weligama. Through our sponsorship program, we combine animal welfare with educational support and assistance for families in need.

DONATIONS FOR LOKKU'S DOGS & CATSCARE

„Lokkus dogs & catscare“ is part of the non-profit organization „Conny's Mensch und Tierhilfe“. Donation receipts can be issued. For donations up to 300.00€, a bank statement is sufficient as proof for the tax office. Receipts will only be sent for individual donations over 300.00€, but can also be issued upon request for smaller amounts.

In order to help the animals permanently, we rely on donations and appreciate every contribution. There are ongoing monthly costs, such as purchasing large amounts of food, electricity bills, rent, as well as special expenses like hospital trips and surgery costs. Unfortunately, we cannot accept material donations from Germany due to the high shipping costs to Sri Lanka. However, perhaps you can think of other ways to support us.

ANIMAL SHELTER Sri Lanka

FAMILY SPONSORSHIP

Many people here suffer from poverty, and the economic crisis has worsened the situation. Some animal lovers are unable to adequately care for their dogs or cats. To help, we place dogs from our shelter with loving families and provide two sponsors: one sponsor supports the family with €12 per month as „care allowance“ per animal, and another sponsor covers the food costs, also €15 per month. We deliver the care allowance and food monthly and ensure the well-being of the animals through regular checks. We hope that family sponsorships will increase appreciation for animals and free up space in our shelter for emergency cases.

SPONSORSHIPS FOR KIDS WITH DISABILITIES

Our new heartfelt project combines animal welfare with supporting children with disabilities. Families affected by this situation take in cats or dogs from us once we have found sponsors for the animals' food and a sponsor for the child. We visit the family regularly, provide guidance on handling the child's disability, supply suitable play materials, and help ease the family's financial burden from special expenses such as diapers, baby formula, or medications. Sponsors are kept up to date with regular pictures and videos.

FOOD SPONSORSHIP FOR DOGS AND CATS

We currently feed around 280 dogs and 19 cats daily at our shelter and on the streets. We would be delighted if you choose to sponsor food for one of these animals. Every animal is vaccinated and neutered, and medical treatments are often necessary. A comprehensive care package also covers veterinary costs. If you are interested in a sponsorship, please let us know, and we will send you photos of animals currently in need of a sponsor.

Every day, we feed and care for stray animals. We also continuously neuter dogs and cats, one of the most important and effective measures in animal welfare worldwide.
