

CONNYS DOGSRESCUE – ANIMAL SHELTER SRI LANKA

Our animal shelter in Nilaveli/Trincomalee is currently home to around 140 rescued dogs who would not have survived without help. Almost every day, puppies as well as sick or disabled dogs are abandoned at our gate. Finding permanent homes for them locally is often very difficult.

Many new arrivals urgently require life-saving surgery. We also carry out regular spay and neuter campaigns for street animals. Pet owners can have their dogs and cats neutered and treated free of charge at our shelter.

Our cats and a small number of dogs are cared for in Balapitiya. Through our sponsorship program, we combine animal welfare with educational support and assistance for families in need.

DONATIONS FOR CONNYS DOGSRESCUE

“Conny’s Dogsrescue” is part of the non-profit company “Conny’s Mensch und Tierhilfe UG.” Donation receipts can be issued. For donations up to €300, a bank statement is sufficient as proof for tax purposes in Germany. Official receipts are automatically issued for single donations above €300, and can also be provided for smaller amounts upon request.

To continue helping the animals sustainably, we rely on donations. There are ongoing monthly costs for food, electricity, and rent, as well as additional expenses for veterinary visits, surgeries, and emergencies.

Locally, however, donations such as food, medication, vitamins, towels, and similar items are very welcome — please feel free to ask about current needs.

ANIMAL SHELTER Sri Lanka

SPONSORSHIPS FOR KIDS WITH DISABILITIES

Our new heartfelt project combines animal welfare with supporting children with disabilities. Families affected by this situation take in cats or dogs from us once we have found sponsors for the animals' food and a sponsor for the child. We visit the family regularly, provide guidance on handling the child's disability, supply suitable play materials, and help ease the family's financial burden from special expenses such as diapers, baby formula, or medications. Sponsors are kept up to date with regular pictures and videos.

FAMILY SPONSORSHIP

Many people here suffer from poverty, and the economic crisis has worsened the situation. Some animal lovers are unable to adequately care for their dogs or cats. To help, we place dogs from our shelter with loving families and provide two sponsors: one sponsor supports the family with €12 per month as „care allowance“ per animal, and another sponsor covers the food costs, also €15 per month. We deliver the care allowance and food monthly and ensure the well-being of the animals through regular checks. We hope that family sponsorships will increase appreciation for animals and free up space in our shelter for emergency cases.

FOOD SPONSORSHIP FOR DOGS AND CATS

We currently feed around 140 dogs at our shelter every day, as well as 16 cats and about 30 street dogs. We would be very grateful if you chose to support us through a food sponsorship.

Every animal is vaccinated and neutered, and many also require medical treatment. Our „all-inclusive care“ package helps cover veterinary expenses as well.

If you are interested in becoming a sponsor, please get in touch with us — we will gladly send you photos of animals who are currently looking for a sponsor.

Every day, we feed and care for stray animals. We also continuously neuter dogs and cats, one of the most important and effective measures in animal welfare worldwide.
